

30. vacation requests
 31. Brohm memos
 32. Letters between Brohm and SDDENR circa 1996 - GWD 3-88 and No. 439, No. 462 and technical revisions

~~New Box #99~~

~~(From Original Box #82)~~

1. Loose paper:
 a. Comprehensive Engineering Plan for Gilt Edge Mine Volume 2 Appendices A through C prepared for Brohm and Dakota by SRK March 1994 (5 copies)
 b. Exhibit F - list of claims and owners
 c. Appendix - Cultural Resources - An Intensive Cultural Resource Inventory Survey of the Gilt Edge Sulphide Project prepared for Brohm by Dakota Research Services October 1988
 d. Appendix - Soil Resources - Final Report Soil Resources - Gilt Edge Expansion Project January 9, 1989 - prepared by IMS Inc. for Brohm
 e. Appendix - Wildlife and Aquatic Studies - Gilt Edge Mine Expansion Project Wildlife Investigations - prepared by OEA Research for Brohm 1989 and An Evaluation of the Biological Communities in Bear Butte Creek, Strawberry Creek and Ruby Gulch, South Dakota by OEA for Brohm 1994
 f. Appendix - Vegetation Inventory - Gilt Edge Expansion Project Vegetation Studies prepared by OEA Research for Brohm
 g. Appendix B Hydraulic Computations
 h. Appendix B.1 Culvert Sizing
 i. Appendix B.3 Diversion Ditch Sizing Calculations
 j. Appendix B.4 Operational Water Balance Spreadsheets
 k. Figures - of Ruby Gulch
 l. Comprehensive Engineering Plan for the Gilt Edge Mine Volume 3 Appendices D through E prepared by SRK for Brohm in March 1994 (2 copies)
 m. Order forms for aerial photographs
 n. Maps - leach pad and process pond area; Anchor Hill Heap Leach Facility; Solution Collection System Schematic; Future Waste Rock Disposal and Heap Leach Facilities

~~New Box #100~~ 37 1094592

~~(From Original Box #103)~~

1. List of Technical Revisions for Mine Permit No. 462
 2. Letter from SDDENR to Brohm regarding bond calculations. Attached are the calculations and supporting information
 3. Handwritten note on bonding meeting
 4. Power point presentation notes - Anchor Hill Project - Board of Minerals Presentation

36. Brohm expansion slide show notes
37. Homestake letter in support of Brohm (copied)
38. Westec Invoice
39. Westec report 1996
40. Costs from Birdsall Sand and Gravel
41. 1996 synthetic lining inventory
42. pipe requirements – pipeline used – pipe comparisons
43. Brohm comparative liner system costs
44. clay liner information
45. synthetic liner price comparison between vendors, drawings, and leak detection
46. Brohm daily crusher report
47. Western Industries proposal 1996
48. proposals for pipe work
49. crusher information
50. leach pad cell plan drawing
51. Storm water pond riser drawing
52. Correspondence between Brohm and the SDDENR in 1996 regarding the plans and specs for the leach pad expansion and storm water pond, operational use of the leach pad, cell loading and unloading
53. SRK CQA Plan – report and correspondence with Brohm
54. FMG Inc. – Statement of Qualifications for Geotechnical And Engineering Design Services prepared for Brohm in 1996
55. FMG Inc. progress letter to Brohm 1996 – copied
56. SRK and Brohm letters regarding fill material
57. Addendum to the Technical Specifications and Construction Quality Assurance Plan for the Anchor Hill Project – prepared by SRK for Brohm in June 1996
58. Letters and information between Brohm, SRK, and SDDENR regarding the leach pad and storm water pond. Professional services agreement between Brohm and Western Industries Inc. dated 1997
59. newspaper clippings, Dakota Mining corporate information and mergers, memos regarding short term planning and personnel requirements, SDMA, TIC letters, memo crusher ore cutoff grade, evaluations of alternative Cut Edge plans, blast hole reporting, letter from Pegasus Gold – Beal Mountain Mine regarding Initiative-122
60. Mintec correspondence with Brohm and Medsystem information
61. CSC Contractors Service Company
62. Mine Evaluation Services
63. Black Hills Power and Light Company letter to Brohm 1994
64. SDMA letter and attachments
65. Synthetic Industries letter – geotextile
66. Westec proposal for final leach pad
67. Staff meeting notes
68. Brohm's gain sharing plan
69. Financial and operating cost information
70. Feasibility Study by Roberts and Schaefer Company March 1991
71. Golden Reward mining company information

72. Gilt Edge Reserves
73. Permit Conditions Summary and Environmental Compliance Sampling and reporting 1996
74. Correspondence between Brohm and H.C. Osborne and Associates in 1994 regarding heap test and pad layout
75. Job descriptions
76. Information from LAC Minerals on Richmond Hill Project
77. leach accountability reports
78. Leak detection records for different cells
79. Weekly mine contract control meeting - Brohm 1996 and Blattner (copied)

New Box #101 33
(From Original Box #129)

1. Publications
 - a. Brohm Prospectus/Interim Reports (Brohm 1986 report copied)
 - b. Economic Impact Analysis of Mining Industry in SD
 - c. Mining Law Reform Article
2. Media Photos - pictures of men in mine and some facilities at the site
3. Media Press Releases 1992-87 (some copied)
 - a. Comments on non-compliance in 1992
 - b. Comments on cyanide leak and clean up 1991
 - c. 1989 NOI for trace contaminants from heap leach pad
 - d. Brohm Resources and MFC merge to form Min Ven 1988
 - e. Others
4. Memberships - Professional Trade
 - a. SDMA newsletters and meetings
5. Media List - list of newspapers, etc.
6. Media - News Articles
 - a. 1998-96
 - b. 1996-92
 - c. 1991-87
7. Mine Engineer and Pit Operations
 - a. Plant of Operations - Anchor Hill Project - Brohm - 1994
 - b. Production Reports - Production Shipment Reports
 - c. Spent Ore reprocessing
8. Public Relations
 - a. Tours - Public and Private
 - b. PR Campaign - Communications Program South Dakota - letters and drawings
9. Government Relations
 - a. Correspondence/meeting notes - information on Governor George Michelson
 - b. Citizen's Advisory Committee
 - c. Mining Initiative (some copied)
 - d. SD Codified Laws
10. Metallurgical - Sulfide Project reports
